Every clustering against its shuffle null

Silhouette, agreement or block statistic per analysis; grey bar to the shuffles' 95th percentile, tick at their median. Table: c_data/05_clustering.xlsx, summary.

Protein groups by association profile

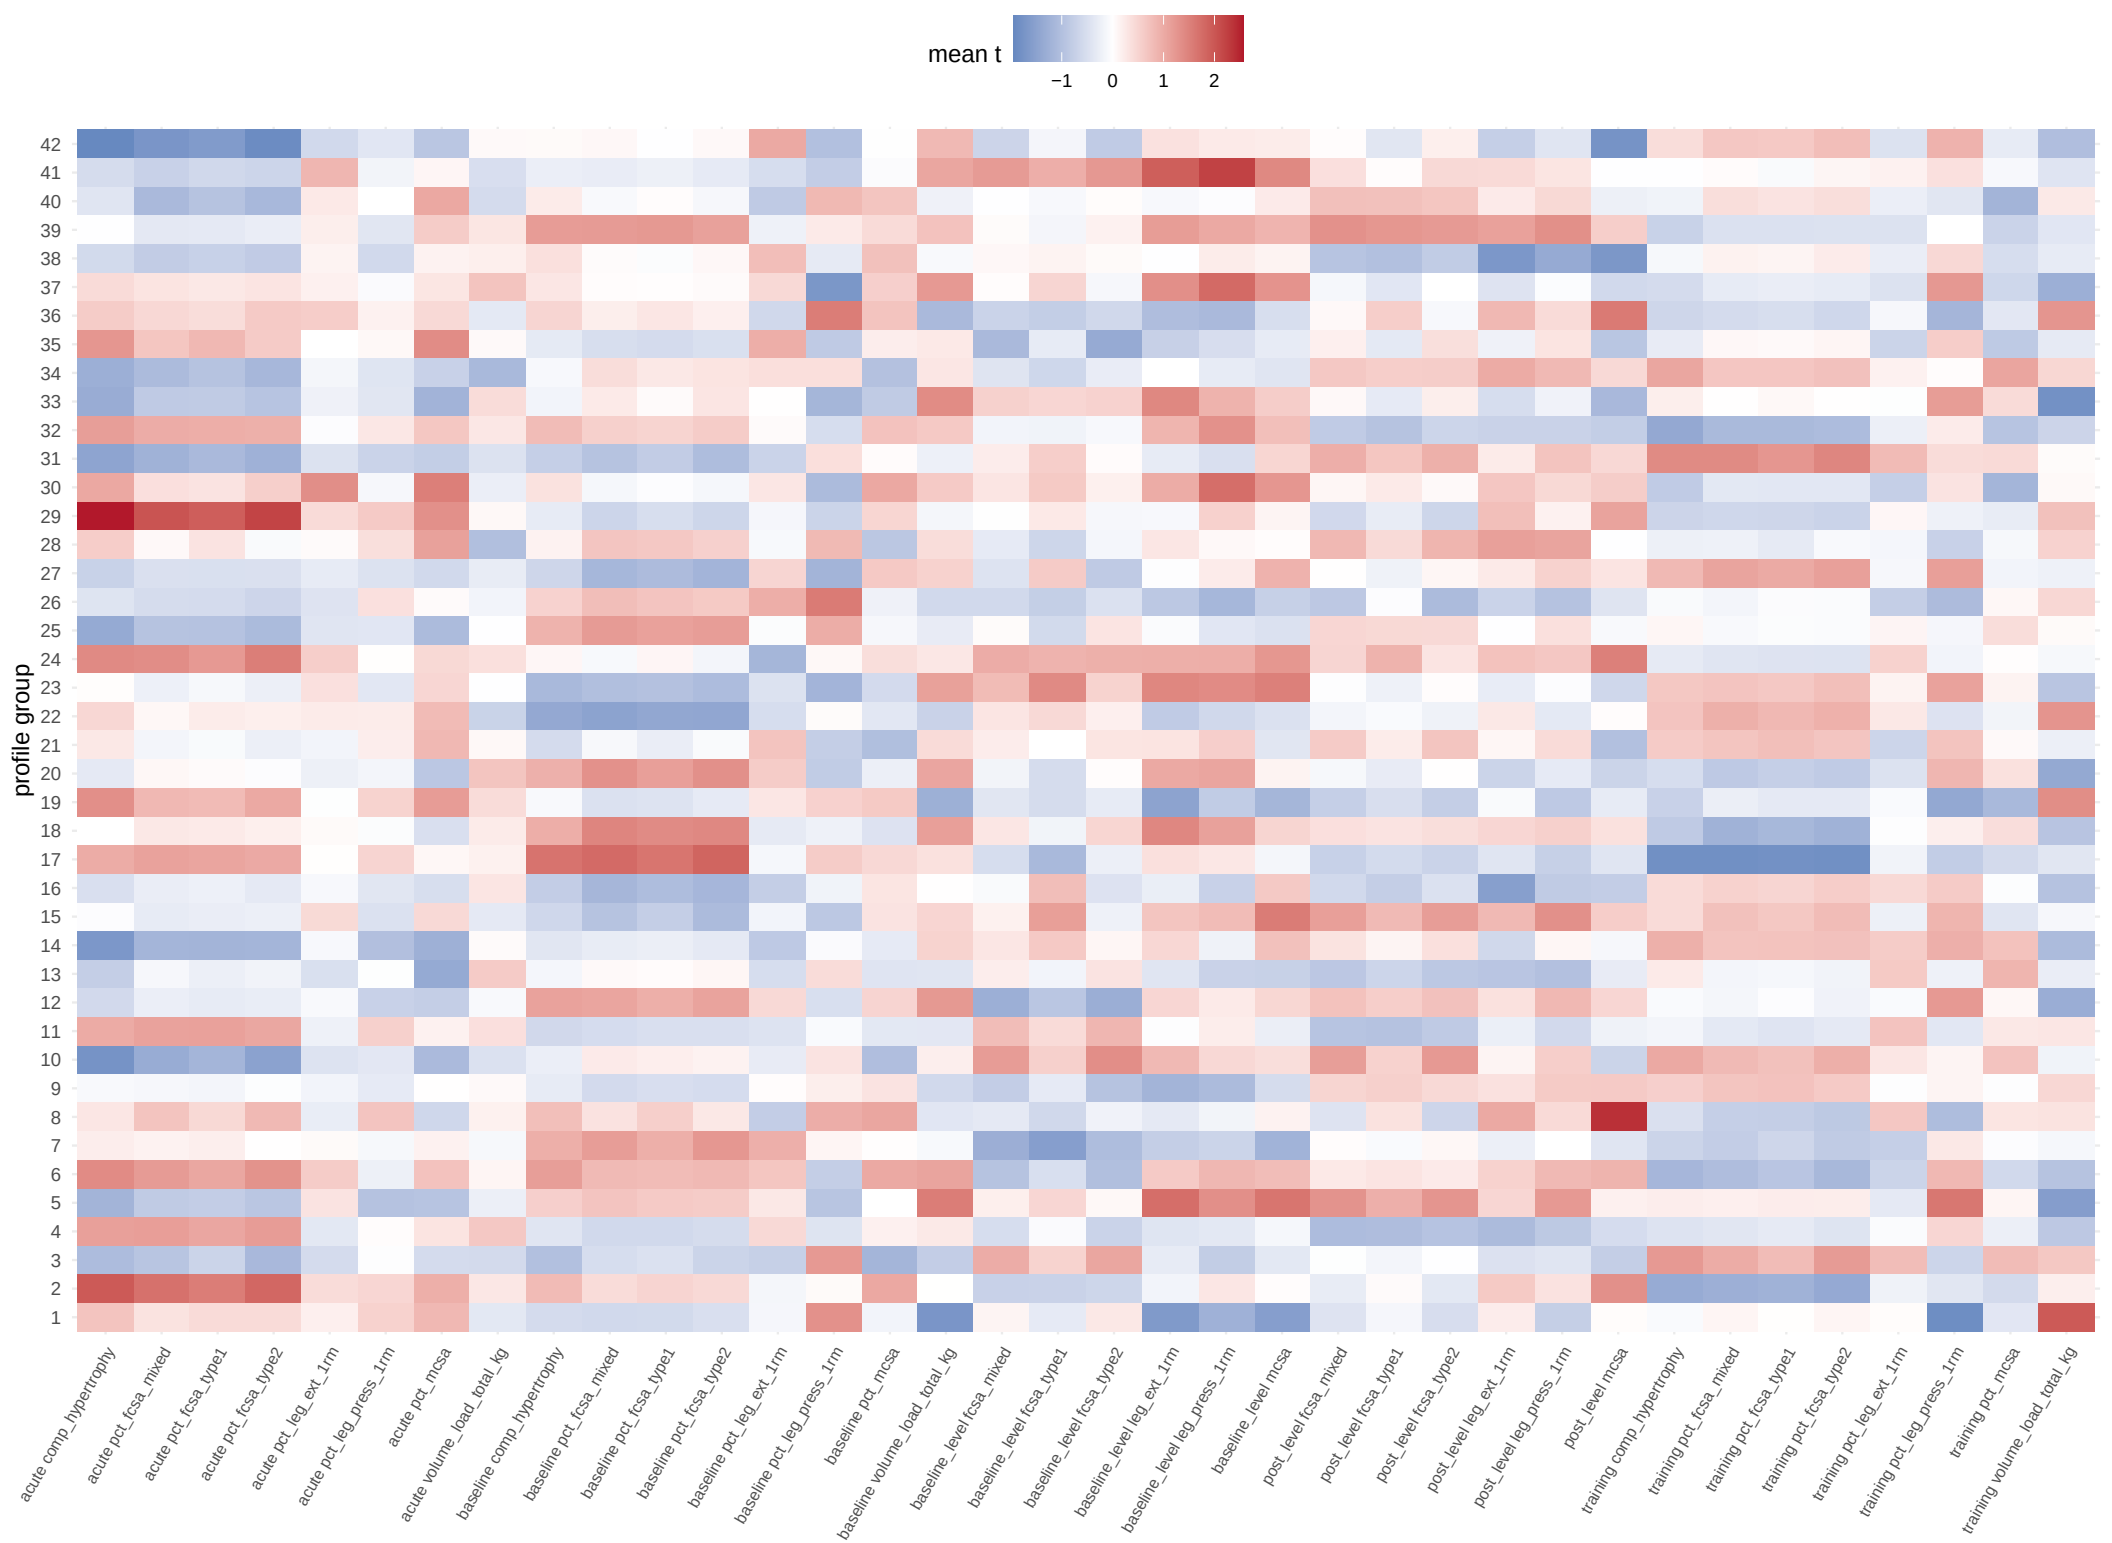

Table: profile_groups, profile_means.

Per trait: protein clusters by association across pairings

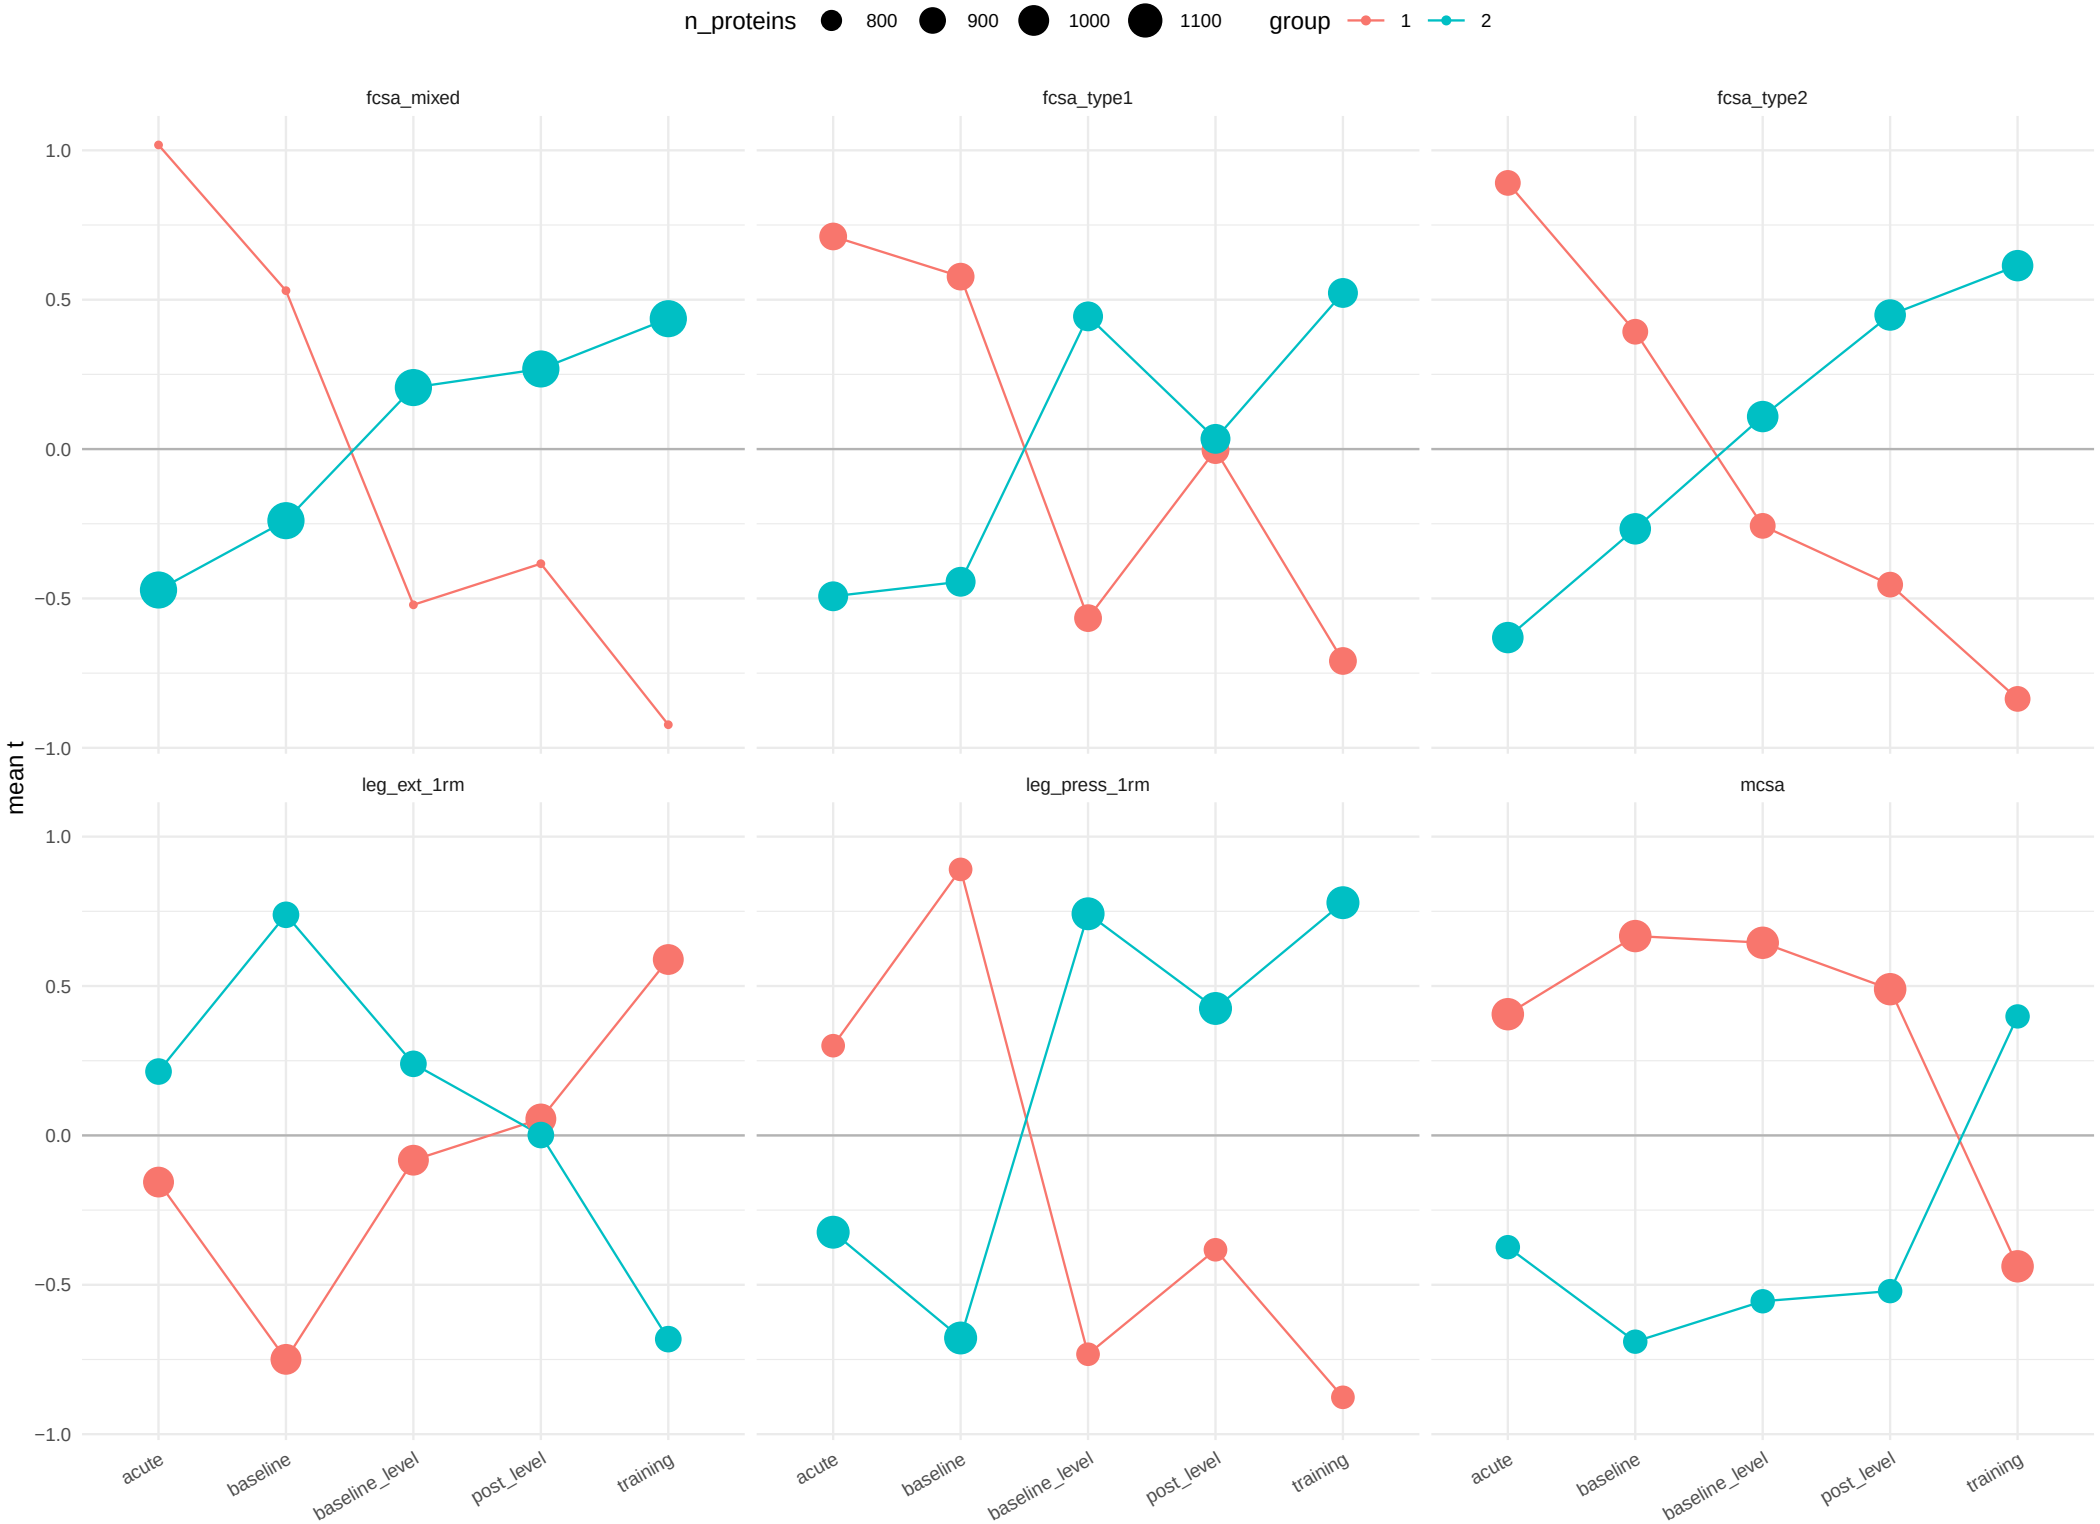

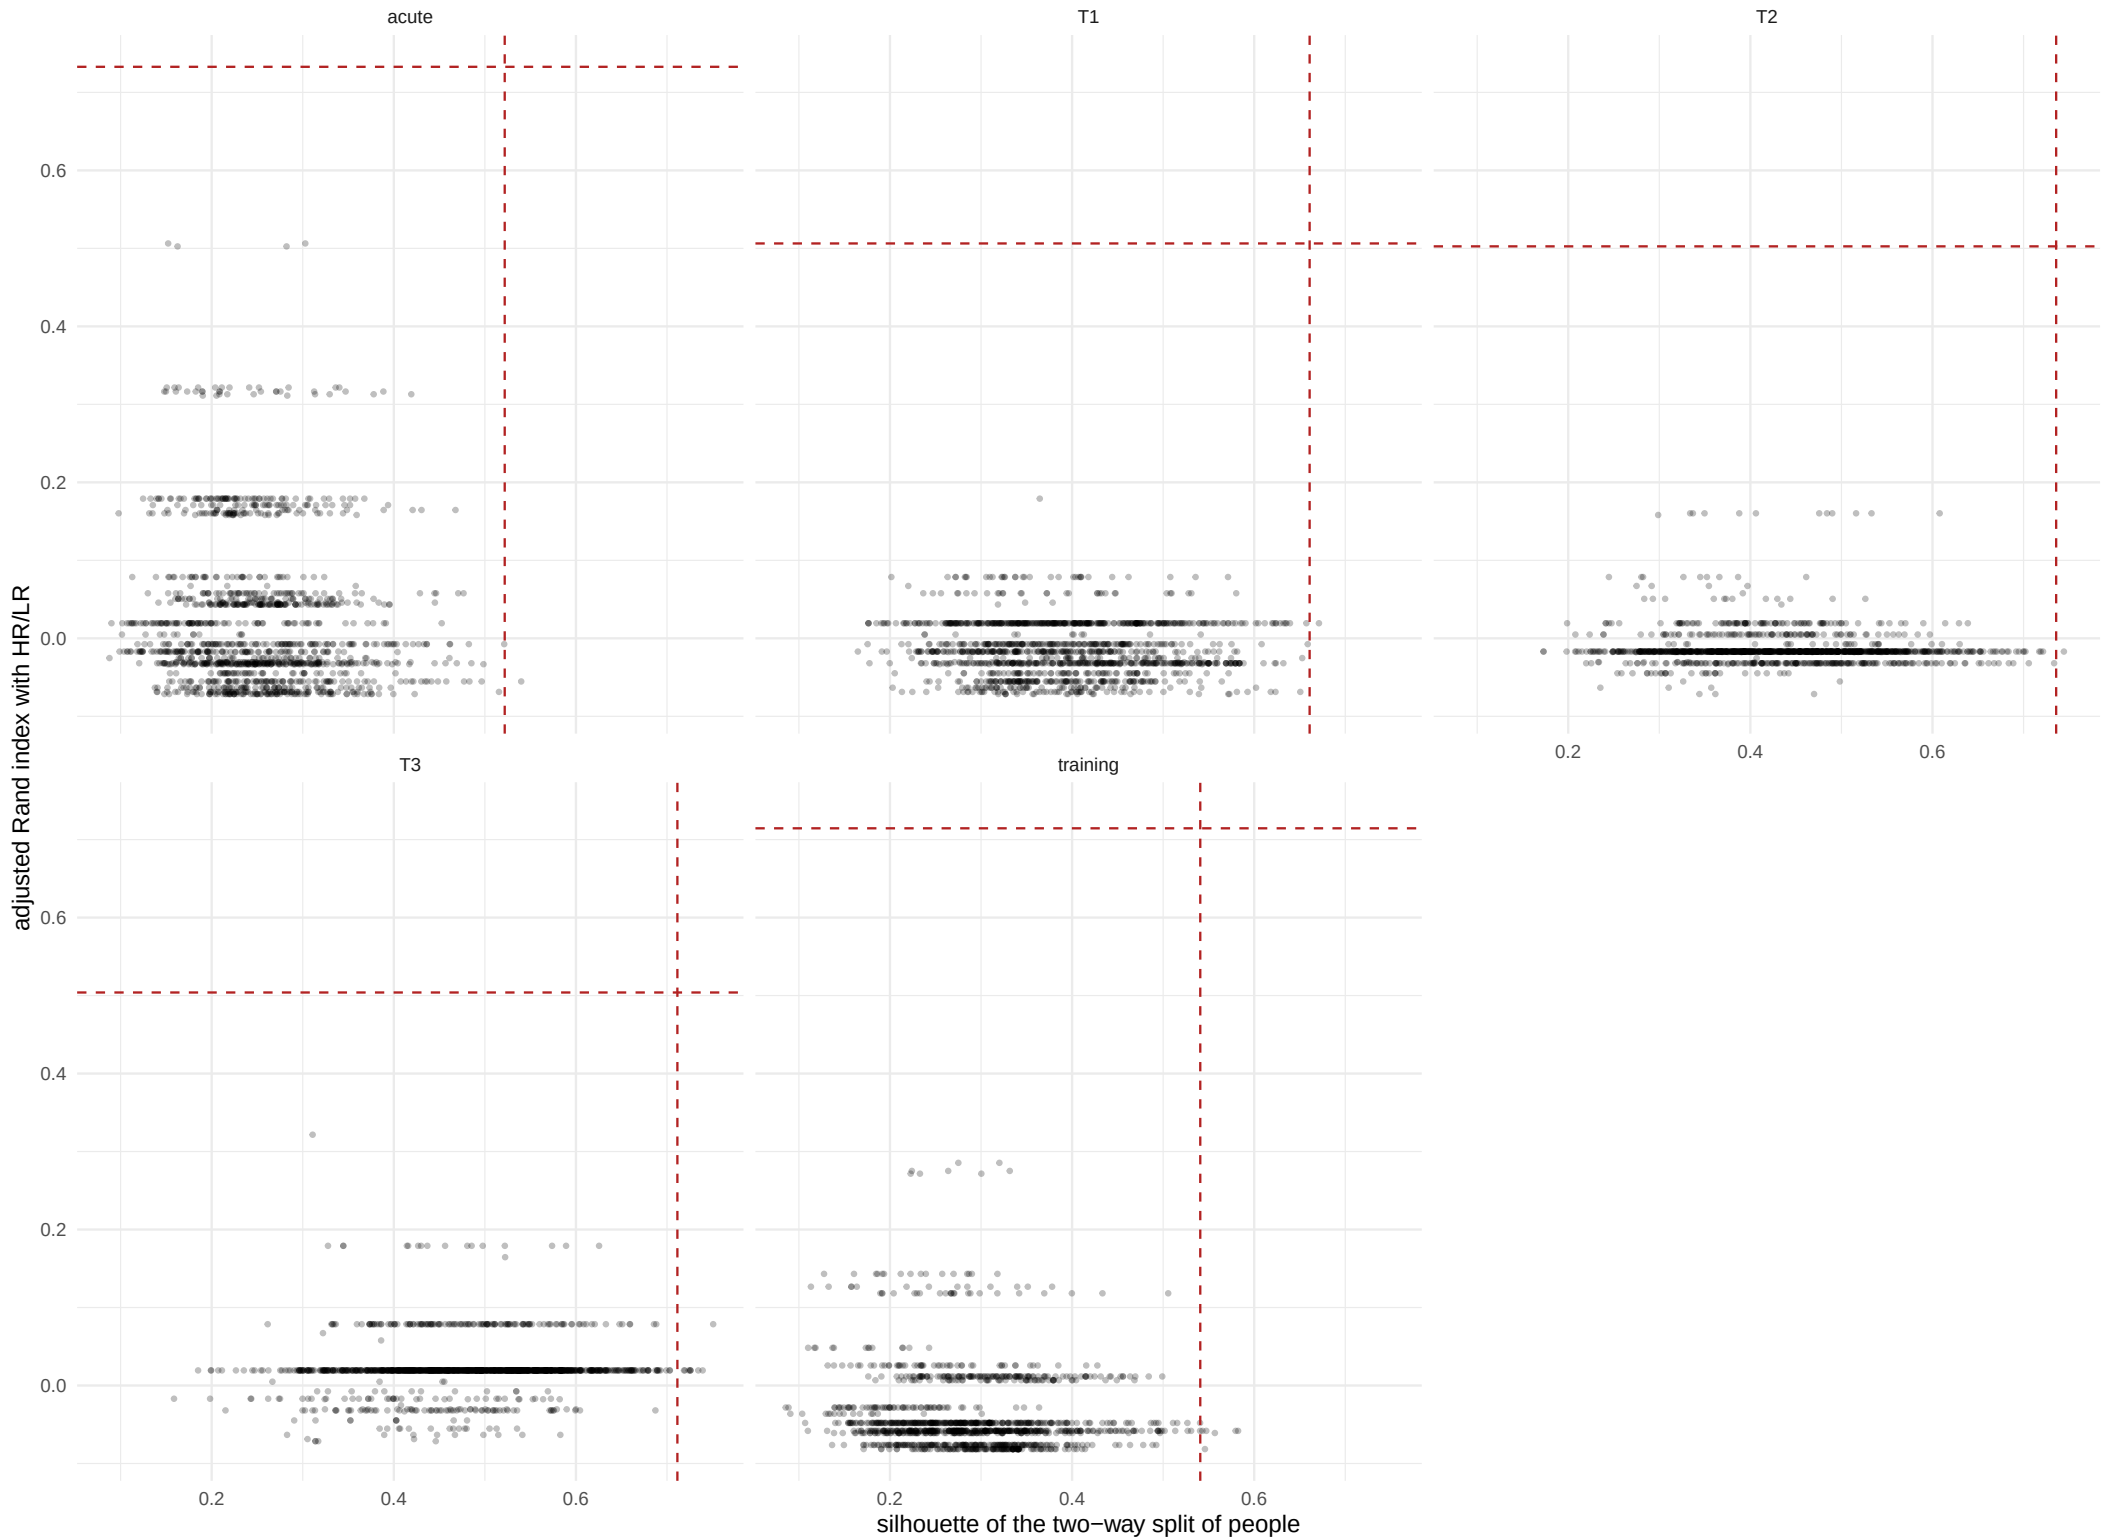

Table: trait_profiles, trait_profile_means.

People split within every pathway and module

Dashed lines: 95th percentile of the best score over 100 shuffled searches; a point beyond a line beats the search's own chance. Table: groups.
